

# KNOW

## WHO IS WORKING ON YOUR HOUSE

**Make sure you are doing your part to help ensure safety around your house and the safety of those working on it. At the end of the day, everyone deserves to get home safe.**

**As a property owner you are entitled and encouraged to ask contractors the following questions:**

- Do they have a plan to safely complete the project that can be shared?
- Can each worker provide a valid Fall Protection Training Card if they are going to be working at a height of 3 metres or higher?
- Will the workers be using fall protection gear, such as a full-body harness, when working at a height of 3 metres or higher? For example, when working on your roof, siding, or windows.
- Do they have Workers' Compensation or private insurance coverage for workplace injuries?

*Be sure to have confirmation of training or qualification before the work is started.*

**If you have any questions or want to report an unsafe act at a workplace, call 1-800-952-2687 or email [laesafetybranch@novascotia.ca](mailto:laesafetybranch@novascotia.ca).**
